***PURCHASE YOUR NEXT HERD SIRE WITH
CONFIDENCE***

At Anderson Cattle Company we have worked hard over the years to build a herd on honesty and integrity. This is a family operation and everyone takes an active part. Austen and Breanna are the 5th generation to raise cattle in the Swan River Valley.

In 2011 we were recognized by the Canadian Angus Association for 75 Years of registering pure-bred Angus. We hope to continue the tradition for the next 75 years.

The Anderson family has been part of the Swan Valley Agriculture Society since it began in 1902, and we continue on with “Down on the Farm”, an ag education exhibit every year at the fair. We are very involved in 4-H, with both kids being “university members”. The future of the cattle industry is our youth.

We both work off the farm and have made adjustments to our operation ; the cows have to do a lot of it on their own. The cattle must be quiet and are handled with dogs and horses.

Calving starts in March so our main focus has been offering two year old bulls. None of the bulls receive creep feed prior to weaning . The first winter they are raised on a forage ration and the second winter this is supplemented with a balanced grain ration. All bulls receive free choice mineral.

The bulls offered will be vet inspected and have passed a semen test prior to the sale. They have been halter broken and will be ready to go straight to work. View the catalog online, or call us for a copy. We would be happy to assist you with your next herd sire selection.
